Subject: General meeting Against backyard chickens

EXTERNAL

Hi Mayor Foster,

My name is Blair Evans. My family and I live in Bowmanville. Myself and many Clarington residents oppose and amendments to bylaw 2012-045 to allow backyard hens in residential areas. We are in global pandemic and resources are stretched thin. We need to use the funds available to help those in need not police backyard chickens. The Presenter for Clucks for Clarington, Emily Allison has knowingly broke thw bylaw built a chicken coop and is housing ducks and chickens despite Robert Hauk (bylaw) telling her she could not. She feels it is appropriate to post on social media to brag about her backyard flock on peachtree crescent. How can you trust someone who knowingly is brwaking the law to advise yourself and council to low this ammendment. We need to get through Covid so we can get back to the things we love like attending church services and helping out the less fortunate. Putting citizens at risk of salmonella or other avian disease from Backyard chickens is not welcome.

Thanks for your support.

Blair Evans
