**EXTERNAL**

Hello I hope this finds you in time. My name is Kevin Nyberg and I live at 4045 Highway 2 Newcastle Ontario L1b0r4.

I strongly urge you to please review the EP lands being discussed here in rural Clairington on December 14th 2020 because this decision affects my entire family today and also there future.

First off my wife and I bought this land to possibly retire early and start a hobby farm to help supplement our reduced income plus have a couple animals to help with grocery costs. With the EP land my 73 acres goes down to a merely 1 acre of agricultural not even enough for a small garden and a chicken coop.

Second we have land on Brownsville that currently is already under the current zoning already parcelled of as residential we were going to gift to our children to help them with there future but now that land is also being taking away from us and them to become EP lands I don't get it!.

Third we have 100's of apple trees on the land that were from the previous owners that have not been taken care of and if not acted on soon will die I find it a waste of the land to not save them. We also have 2 clearings in the back approximately 15 acres that is clear land which is also being affected someone needs to come look or at least contact the owners before this zoning is changed!.

Thanks  
Kevin Nyberg.
