Dear Mayor Foster:

Re: Planning and Development Meeting Clarington, Ontario October 22, 2019 and
full Council Meeting, October 28, 2019.

Please note: We request that this letter be added to the Agenda of the Planning and Development Meeting on October 22, 2019 and the full Council Meeting, October 28, 2019.

The proposed rezoning of rural property in Clarington has caused such deep concern and outrage among Clarington property owners. The lack of transparency and the many obvious errors in property mapping as well as the contradictions between the various agencies' documentation clearly demonstrates the need to scrap the current process and start again.

Over many meetings it was shocking to hear and see demonstrated by various speakers and Councilors these procedural flaws in so many instances. Your actions will seriously and negatively impact rural families' lives/livelihoods in the present and for generations to come.

If the concept of justice, fairness and transparency has any real meaning we ask that the Council members vote in FAVOUR of the motion put forward by Councillor Neal.

On a personal note, I very much hope not to be the second generation in my family whose property rights are violated as my father's were in the former USSR where his property was simply confiscated by the Soviet government by an edict that was nailed to his front door by Soviet soldiers.

Respectfully
