

POSTAL WORKERS CAN DELIVER EVEN MORE

“What’s beautiful about Delivering Community Power is how it takes on economic, environmental and social issues at the same time.”

NAOMI KLEIN

To make a reimagined Canada Post a reality, we need people across the country to let the government know it’s time to act.

Here’s what you can do:

1. Join us online and stay connected to the campaign
2. Visit www.DeliveringCommunityPower.ca and sign up to keep up with the latest
3. Bring the campaign to your community
4. Write an Op-Ed in your local publication in favour of the Delivering Community Power plan
5. Collect petition signatures & show your MP that it’s what voters want
6. Support your postal workers in their negotiations with Canada Post – they’ve put these proposals on the bargaining table!

Reimagining Canada Post with services to support every community.

Canadian Union of Postal Workers

OUR PLAN

New services to support every community

We're reimagining Canada Post with expanded services for all, including:

- Postal banking
- Elder check-ins
- High-speed internet
- Affordable food delivery
- Electric vehicle charging
- Community hubs

HOW WE'LL FIGHT CLIMATE CHANGE

- **Green the Canada Post fleet** with union-made electric vehicles, creating green jobs in Canada and significantly reducing our carbon output.
- **Retrofit Canada Post buildings** with solar panels for cost savings and to help fight climate change.
- Expand the use of Canada Post as the **consolidated last mile delivery** to ease congestion and pollution in our cities caused in part by too many delivery trucks that aren't full to capacity.

As Canada's largest public infrastructure, Canada Post not only has a large footprint, but it can also have substantial influence and lead the way for other Canadian companies to become more sustainable.

While Amazon chases record profits, big banks abandon rural communities, and cell and internet companies charge sky-high fees, postal workers have a plan that leaves no one behind.

Imagine a climate-friendly postal service that helps elders live in their homes longer, delivers local food to your door, and brings high-speed internet to every corner of the country.

Imagine post offices with solar panels on the roofs, electric charging stations outside, and a union-made zero-emissions fleet on the roads.

A truly sustainable model that not only delivers green solutions but pays for itself by providing low-fee banking services to cities, towns and Indigenous communities, no matter how small or remote.

It's win-win-win.

And postal workers have a plan to deliver it.

Why Canada Post?

For over 150 years, you've trusted us to deliver a high-quality service through all kinds of weather.

Today we're stepping up with a plan that delivers a better quality of life for everyone, while also bringing solutions to our most complex and urgent needs as a society.

Canada Post isn't just a humble mail service, it's our country's largest logistics, transportation and retail network.

All around the world, postal services are successfully reinventing themselves to better meet the needs of their citizens in the 21st century. The UK, France, Brazil, Germany, Japan, Italy and many others have expanded services to better serve seniors, address social inequalities and provide low-fee financial services.

With an unparalleled presence in communities big and small, postal workers are already set up to serve every corner of the country.

We can harness the vast network of people who serve you every day to deliver more. And why not expect that from our country's largest public institution?
