Subject: RMD Contract D2020-32 - Request for Noise By-Law Exemption for October 14 - November 5, 2021

EXTERNAL

Hello,

The Region of Durham is administering Contract D2020-32, Phase 2 of the Courtice Trunk Sanitary Sewer, on Townline Road between Beatrice Street and Coldstream Drive. The construction work is progressing and our Contractor has provided a schedule update indicating that their work will progress into the Townline Road and Taunton Road intersection starting October 14, 2021. The Contractor anticipates that they will need until November 5, 2021 to complete the work within the intersection, which includes open cut excavation of a deep trunk sanitary sewer, groundwater dewatering, storm sewer relocations and restoration of traffic signals and roadway pavements.

The Contract documents prescribe that the Contractor work continuously with 2 crews up to 24hrs per day while this intersection is fully closed to traffic in order to minimize the duration of the intersection closure and its associated traffic disruption, all while keeping the work site safe for workers and the general public. This approach was included in design review submissions reviewed and commented on by Municipality of Clarington staff.

With the recently provided construction schedule from our Contractor, we respectfully submit this request for a Noise By-Law exemption for the period of October 14 to November 5, 2021 for the purpose of constructing the trunk sanitary sewer through the Townline and Taunton Road intersection. Noise generated will be from heavy construction equipment working on the site.

The Region's Construction Team's primary contact is:

Cory Manion C.Tech

Project Supervisor
