

Mayor Foster and Members of Council

In the view of our ACO Clarington branch, a ditch along the west side of Lambs Road from Concession Street to the natural waterway north of the north gate would be helpful in deterring larger vehicular trespassers. Since the property owners have been delaying any attempts to protect this property, in our view it makes sense to take some action on the municipalities part to curb this behaviour.

People have been walking both the Ehrenwort Trail and the ring road regularly, whether condoned or not. Cars, motorcycles and ATV'S have been entering the property from all directions but mostly from Lambs Road. Especially during summer hours, both of these passage ways have been very busy with people. We have witnessed people who have almost been hit by cars driving on the ring road. I have seen mini bikes and motorcycles drive the ring road and 1 motorcycle drove down to the dam then around the ring road. All these infractions have been reported to Bylaw. Something needs to be done before someone is seriously hurt or killed. I would think the liability would be the developers' but no one wants to see this kind of behaviour as its so risky and the walkers using the trail legitimately, do not anticipate sharing it with vehicles.

Digging the ditch out and creating a berm, with boulders added if needed next summer when the behaviour could increase again, would be supported and appreciated by the ACO.

Thank you for your consideration,

Bernice Norton

ACO Clarington Branch President
